ABSTRACT

This annual directory lists all local agencies providing free public elementary and secondary education in the United States and its outlying areas. The listing includes all systems regardless of size, as well as nonoperating public school districts. The main body of the directory lists, in alphabetical order by State, the local public school systems with the following information for each system: name of unit, superintendent's location, ZIP code, county name, grade span, and enrollment. Also included are (1) summary tables showing the distribution of operating local public school systems and numbers of pupils, by size of system; and (2) a ranking by enrollment of school systems with enrollment of 10,000 and more, listing the name of unit, city and state, and number of pupils. A related document is ED 052 546. (Author)

FOREWORD

As a result of reorganizations, annexations, and consolidations the number of local public school systems in the United States decreases each year. Small school systems are finding it increasingly difficult to offer quality programs of education as costs of education increase while taxable wealth necessary to support education remains relatively constant. Consolidation into larger but fewer school systems appears to offer economies which compel smaller school systems to consolidate into larger ones.

This directory is part of the U.S. Office of Education's continuing series of education directories. We issue this publication in order to provide a current listing of operating local public school systems to the many agencies and organizations which deal with such public school systems. There is no other single directory source which also provides statistical data for public school systems.

A new method of producing the directory listings was introduced in the printing of this edition of *Education Directory, Public School Systems.* This method is Linotron, a computer-operated typeset process. In future editions of the directory, the greater flexibility of the Linotron process will provide increased freedom in manipulation of the printing format; and, because of the ability to differentiate the typeface, will make the directory more readable and thus easier to use.

For their fine cooperation in updating the information contained in the Office of Education's file of local school systems we are indebted to State education agency research and statistics personnel as well as to members of the Committee on Educational Data Systems of the Council of Chief State School Officers. Each year the preceding year's listing of school systems is sent to the State education agencies for updating. Special thanks are due to these personnel this year for the early return and high quality of data.

Roy C. Nehrt, Acting Chief
Elementary-Secondary Surveys Branch

2. Ranking by Enrollment of Schools Systems With Enrollment of 10,000 and More: Fall 1971 257

INTRODUCTION

The primary purpose of this annual directory is to list all local agencies providing free public elementary and secondary education in the United States and its outlying areas. Included are agencies that provide general or both general and specialized education, but not those that provide only specialized education. "Local" as used here denotes those agencies closest to the actual operation of the educational programs. This may include town, district, area, county, or even State agencies *(as in Hawaii and parts of Alaska)*. For the convenience of users of this publication, one additional level is given in certain cases. Where administrative services are performed for more than one school district by a common superintendent, the resulting supervisory union is listed in addition to the local school districts. This arrangement is found in the States of Maine, Massachusetts, New Hampshire, and Vermont.

Information for this directory was provided by the research and statistical staff in each State Education Agency. The instructions and form that were sent to each State are contained in the appendixes.

Except for special cases noted below, the following information is given for each system listed: Name, mailing address, county, grade span, number of pupils, and number of schools.

1. Nonoperating districts *(those not currently operating schools)* are shown at the end of each State listing, and only the name and county are given.
2. Grade span, pupil, and school data are not reported for the supervisory unions in Maine, Massachusetts, New Hampshire, and Vermont. However, this information is given for each operating school district within these supervisory unions.
3. Since all school districts in a supervisory union share the same administrative office, the address of this office is given only once for each supervisory union and applies to each school district in the union.

NOTES TO USERS OF THIS DIRECTORY

Name of Unit

- Within each State the regular operating school systems are presented first and are followed by the nonoperating districts. In those States having supervisory unions, they and their component districts are listed next.
- Where a nonoperating district is part of a supervisory union, it is placed with its union rather than with the nonoperating districts.
- Within each of the categories noted above, the sequence of entries is alphabetical and numerical according to the name of the unit.
- Information for the outlying areas of the United States is given following the alphabetical listing of States and the District of Columbia.
- In some States, the legal name of a school district may differ from the popular name by which the district is generally known. The names used here are those suggested by each State education agency as being the most appropriate identifiers of the districts in that State.

Location of Superintendent

- The information given here presents the mailing address of the administrative office for each operating school system or supervisory union.
- These place names have been reviewed and edited to conform to U.S. Postal Service recommendations as to abbreviation and spelling.
- When a school system located near a State boundary has its post office address in the adjoining State, the abbreviated name of that State is given immediately after the place name.

ZIP Code

This code should be considered an integral part of the mailing address.

County Name

County names are shown for operating and nonoperating districts and for supervisory unions. The county given for a school system is the one in which the superintendent's office is located, although some parts of the system may lie in other counties. In the listing for Alaska, election districts rather than counties are given in this column.

Coterminality of Georgraphical Boundaries

The reader should be aware that school system boundaries often are not coterminous with any other political boundaries. For example, the boundaries of the San Antonio Independent School District *(ISD)* in San Antonio, Tex., are not coterminous with the city limits but enclose only a portion of the city's area within the city limits. Alamo Heights ISD is also entirely within the city limits of San Antonio. Several more school districts cross the city limits and therefore contain areas both within and outside of the city of San Antonio. Most of the larger cities in Texas have the same kind of situation.

The Bureau of the Census in the 1967 Census of Governments found that 86 percent of all independent school districts and 20 percent of the dependent school systems serve areas that do not correspond directly to those of any other local governments. The noncoterminous school systems included 3,449 classed under the heading "municipal." Most of the "municipal" systems included an entire municipal area as well as some adjacent territory.

In several States, school district boundaries are always coterminous with other political boundaries. Examples are Maryland, Virginia, Alabama, Florida, West Virginia, and Nevada, with coterminous school district and either county or city boundaries.

Grade Span

These entries represent the lowest and highest grades taught in a system, from prekindergarten *(PK)* through grade 12. However, grades 13 and 14 do appear in a few school systems containing vocational education courses, and many operating school systems offer postgraduate *(PG)* courses. Where information was not available, or where a grade span designation was deemed inapplicable by the respondent, this column is left blank. It is also blank for nonoperating districts and supervisory unions.

Pupils

The figures reported here represent average daily membership *(ADM)* for the school year 1970–71. When this measure was not available, other pupil counts were used as follows:

1. For New York, the fall 1970 enrollment is shown.
2. Pennsylvania derived a conversion factor of 0.989 x 1970 fall enrollment equals ADM, based upon its study of data from the preceding 3 years.
3. The Vermont ADM entries do not include students sent to private schools by local school districts through tuitional agreements with the private schools.
4. The California enrollment entry is the Average Daily Attendance *(ADA)* for the 1970–71 school year. In California's compilation of ADA, pupils were counted as present if they had a legal excuse for absence on a given day. Therefore, the California ADA entries are roughly comparable to the ADM entries of the other States.
5. Estimated fall 1971 enrollment is provided for new districts in all States, where available. Where such estimates were not available, no entry appears.

NOTE.–Fall enrollment is the number of pupils on the rolls on a specific date *(usually October 1 or the nearest date thereto when enrollments have stabilized)*. ADM is the sum of the days present and absent of all pupils when school is in session during a given reporting period divided by the number of days school is in session during this period. Fall enrollment is generally about 1.5

percent higher than ADM for a given year. Children living within the boundaries of nonoperating districts are counted in the systems in which they attend school.

Number of Schools

Entries in this column indicate the total number of public elementary and secondary schools in each operating system. When this information was not available, for a few scattered systems in several States, no entry appears.

Comparability With Other Reports of the Office of Education

Since this publication is a directory of school systems, rather than a statistical report, primary attention has been given to the accuracy of names and locations. While the numbers of pupils and schools can be fairly reliable indicators of a school system's size, they should not be construed as official statistics of the Office of Education. Official figures in these areas can be found by State in *Fall 1970 Statistics of Public School Systems (OE-20007-70)* and for selected districts in *Statistics of Local Public School Systems, Fall 1969: Pupils and Staff (OE) 72-14.*

Mailing to School Systems

The following form of address is suggested for mailing to a school system:

Superintendent of Public Schools
Name of school system
City or town, State, ZIP code

ABBREVIATIONS USED IN THE LISTINGS

Adm	Administrative
Agri	Agricultural
C or Cons	Consolidated
Chs	Central High School
Co.	County
Comm	Community
Comsn	Commission
Csc	Consolidated School Corporation
Csd	Consolidated School District
Dist	District
Elem	Elementary
Ft	Fort
Hs or High	High School
Id or Isd	Independent School District
Ind	Independent
Jr	Junior
Jt	Joint
Jtr.	Jointure
Msc	Metropolitan School Corporation
Msd	Metropolitan School District
Mun Sep	Municipal Separate
PK	Prekindergarten
Plt	Plantation
R	Reorganized
Reg	Regional
Rhs	Regional or Rural High School
Sc	School Corporation
Sch Dist.	School District
Sp	Special Education
Sr	Senior
St	Saint
Tech	Technical
Twp	Township
UG	Ungraded
Uhs	Union High School
Unif	Unified
Usd	Unified School District
Voc	Vocational

NOTE ON CAPITALIZATION – Many of the above abbreviations contain lowercase letters because of difficulty in a specification of the Linotron process. Future editions of the directory will use the correct capitalization in the abbreviations.

TABLE 1. DISTRIBUTION OF OPERATING LOCAL PUBLIC SCHOOL SYSTEMS, BY SIZE OF SYSTEM: UNITED STATES, FALL 1971

Size of system	Public school systems		Public school pupils	
	Number	Percent	Number[1]	Percent
Total operating systems	16,771	100.0	45,115,164	100.0
Systems with 300 pupils or more	11,675	69.6	44,552,210	98.8
25,000 or more	184	1.1	13,247,458	29.4
10,000 to 24,999	558	3.3	8,198,133	18.2
5,000 to 9,999	1,110	6.6	7,725,266	17.1
2,500 to 4,999	2,026	12.1	7,096,504	15.7
1,000 to 2,499	3,506	20.9	5,741,499	12.7
600 to 999	1,931	11.5	1,504,080	3.3
300 to 599	2,360	14.1	1,039,270	2.3
Systems with less than 300 pupils	5,096	30.4	562,954	1.2

---

[1] These figures represent the sums of the reported "enrollment" figures, which are not comparable from State to State *(see Introduction)*. The official Office of Education fall 1971 elementary-secondary enrollment figure will be reported in the forthcoming publication ***Fall 1971 Statistics of Public School Systems.***

NAMES AND OTHER CHARACTERISTICS OF LOCAL PUBLIC SCHOOL SYSTEMS, BY STATE

FALL 1971

The abbreviations used in the listings of school systems or units, as submitted by the States, were alphabetized in the Linotron process according to the letters used. Therefore, if the reader seeks the name of a system or other unit beginning with a word that may be abbreviated *(such as "Fort" and "Ft" or "Saint" and "St")*, he should look in both alphabetical places.

NOTE.—Montana did not participate in the 1971–72 update of the *Education Directory, Public School Systems.* Therefore, the Montana school systems are listed as they were in the *Education Directory, 1970–71, Public School Systems,* without data entries for grade span, number of pupils, or number of schools.

RANKING BY ENROLLMENT OF SCHOOL SYSTEMS

WITH ENROLLMENT OF 10,000 AND MORE

FALL 1971

NOTE.—Asterisks are used when two or more school systems have equal enrollments, and then the highest rank number is assigned to each of these systems.

255

Rank	Name of unit, city, and State	Pupils 1970–71
1	New York City, Brooklyn, NY	1,143,853
2	Los Angeles Unif, Los Angeles, CA	738,281

APPENDIXES

A. Instructions for Completing ELSEGIS IV, Part D-1, State Report of Operating and Nonoperating Local Public School Systems

B. OE Form 2350-8-1, Elementary-Secondary General Information System *(ELSEGIS)*, Part D-1B, Supplementary Report for Newly Organized Local School Systems, School Year 1970–71

Appendix A

INSTRUCTIONS FOR COMPLETING ELSEGIS IV, PART D-1, STATE REPORT OF OPERATING AND NONOPERATING LOCAL PUBLIC SCHOOL SYSTEMS

COVERAGE

This survey is intended to include all local agencies providing free public elementary and secondary education in the United States and its outlying areas. Such education is considered here to be all education through grade 12. "Local" as used here denotes those agencies having direct responsibility for the education of children residing within designated geopolitical boundaries. This may include town, district, area, county, or even in some cases State agencies (as in Hawaii and parts of Alaska). Also included are public agencies providing special or vocational/technical education on a regional basis such as area vocational/technical agencies.

INSTRUCTIONS FOR UPDATING PART D-1A (THE PRIOR YEAR'S UNIVERSE)

Local school systems as reported in the fall of 1970 are listed by State, county, and name of school system on Part D-1A.

1. For routine corrections of information printed on the listing, draw a red line through the erroneous information and enter the correction in red above the line.

2. For corrections necessitated by school system consolidations, see instructions for completing Part D-1B which follow.

3. If the name of the school system as listed is not the best identifier for general purposes, please correct. However, the name must be contained within 30 characters, including spaces between words.

4. The name of the city listed should be that of the city or postoffice where the superintendent of schools receives mail. Maximum field length is 13 characters. Longer names should be abbreviated per the ZIP Code Abbreviations for Use with ZIP Code, POD Publication #59 (Rev.).

5. The ZIP code should be verified and corrected, if necessary.

6. The county name listed should identify the county where the superintendent of school's office is located, even though the school system may include area in more than one county. This name should be verified and corrected, if necessary.

7. The number of schools operated by each school system in 1970-71 is listed. The number of schools which the school system expects to operate in 1971-72 should be entered, if different from the number listed.

8. The grade span of pupils served in 1970-71 is listed. If the grade span for 1971-72 is to be changed, please enter the correction. The first two positions in the field indicate the lowest grade and the last two the highest grade. Besides grade numbers (01, 02, etc.) the symbols K for kindergarten and PK for prekindergarten have been used. If the school system enrolls post-graduate pupils (pupils who have graduated from the 12th grade, but are taking regular secondary school courses, NOT 13th or 14th graders) the symbol PG may be used for highest grade.

9. Verify or correct the OP CD (operating code) for each system according to the following coding structure:

   Code 1 - Operating system. A self-contained local public school system having its own decision-making board of control, operating a school or schools providing general elementary/secondary education, including vocational/technical education.
   Code 2 - Nonoperating system. A self-contained local public school system having its own decision-making board of control which does not operate schools, but pays tuition to other operating systems for the education of children residing within its boundaries.
   Code 3 - Supervisory Union. An administrative agency which provides services to component school systems (found only in Maine, Massachusetts, New Hampshire, and Vermont).
   Code 4 - An operating system which is a component of a supervisory union.
   Code 5 - A nonoperating system which is a component of a supervisory union.
   Code 6 - A public agency providing general elementary and/or secondary education not included in the above categories, such as an area vocational/technical school system, special education school system, etc., which are not considered to be local school systems as defined in Code 1.

NOTE: Code 6 school systems, as defined above, have not generally been included in previous years. If any such school systems were listed on Part D-1A, please correct the code. If any school systems operate within the State which are properly classified in this way their names and complete information (except ST/SYSTEM NUMBER) should be added to the end of the D-1A list.

10. The supervisory union code for component school systems is listed for those States which have supervisory unions. These codes should be verified and corrected, if necessary.

11. Enter the average daily membership for the 1970-71 school year under ADM. If not available, please estimate.

12. Enter the average daily attendance for the 1970-71 school year under ADA. If not available, please estimate.

13. Enter the fiscal status code for each school system according to the following coding structure:

    Code 1 - Fiscally independent. The local school board has complete control over its fiscal affairs as provided by State school laws and regulations, e. g., the budget and tax rate are not subject to review and/or change by any other governmental agency.
    Code 2 - Fiscally dependent. Some other governmental agency or official, e. g., city council, county board of supervisors, mayor, etc., exercises final control over the school board's budget, tax rate, etc.
    Code 3 - Fiscally independent for current expenditures, but dependent for capital outlay, debt service.

14. School board selection code should be entered according to the following coding structure:

    Code 1 – School board is elected by popular vote.
    Code 2 - School board is appointed by some governmental agency or official, e. g. city council, county board of supervisors, mayor, etc.
    Code 3 - Part of the school board is appointed and part of it is elected.

INSTRUCTIONS FOR COMPLETING PART D-1B

A Part D-1B form must be completed for each newly organized school system resulting from reorganization, consolidation, annexation, etc.

Three types of consolidations appear possible: 1) a group of school systems consolidate into a single school system; 2) a group of school systems consolidate into two school systems wherein one or more of the original school systems are divided as a result of the consolidation; and, 3) a single school system is divided into two or more school systems.

1. In the first situation, complete section I for the newly organized school system. Enter the correct name, even though it may be the same name as one of the systems involved in the consolidation. Enter the city/post office name, ZIP, and county name where the superintendent's office is located. Enter the combined number of schools which the newly organized system now operates (the sum of the school operated by the original systems minus any schools which may have been closed). Enter the grade span of pupils served, the operating code (usually "1"), and the supervisory union code if in New England. Enter the end of year combined ADM and ADA for the newly organized system for the 1970-71 school year. Enter the fiscal and board selection codes.

   Copy the ST/SYSTEM NUMBER, name of system, city, ZIP, and county name from the D-1A list for each of the systems consolidated into this newly organized system into the spaces provided in Section II. Circle the ST/SYSTEM NUMBER on the D-1A list for each such school system entered into Section II.

2. In the second situation, two D-1B forms must be made up. Follow the instructions in paragraph 1 above for completing Section I for each of the two newly organized systems, except that the "number of schools" ADA and ADM must somehow be split out for the system(s) which were divided by the consolidation.

   Follow the instructions for completing Section II above, except that the name(s) of the system(s) which were divided must appear on each of the forms for the two newly organized systems.

   Circle the ST/SYSTEM NUMBER on the D-1A list for each school system entered into Section II.

3. In the third situation a D-1B form must be prepared for each newly organized school system according to the instructions given above, except that the name of the original system which was divided must be entered on Section II of each of the D-1B forms. Be sure to circle the ST/SYSTEM NUMBER on the D-1A list for the system which was divided.

PART D-1B, SUPPLEMENTARY REPORT FOR NEWLY ORGANIZED LOCAL SCHOOL SYSTEMS, SCHOOL YEAR 1970-71

FORM APPROVED
O.M.B. No. 51-R0685

NOTE: One of these forms is required for each newly organized school system. If more school systems were consolidated into the newly organized system than space is provided in Section II, continue Section II onto additional forms and staple together. Copy the ST/System number, Name, City, Zip Code, and County Name exactly as they appear on the D-1A listing to Section II of this form for each of the school systems involved in the consolidation.
